Subject: Re: reminder of next Federal Partners meeting in November [WARNING: DKIM validation failed]

Jerry -

I will not be back from my temporary detail in Ottawa by the time of this meeting but look forward to the next one!

I am working with Environment & Climate Change Canada (their EPA) on their new methane regulations for existing and new oil & gas sources.

A couple of updates you can share with the group:

- The Uinta Basin Pneumatic Controller Emission Measurement Research Project is underway. The first field work took place the week of September 19 and a 2nd week of measurements was to have taken place this past week. Further measurement campaigns will continue into next year. The research team has been working closely with Minnie Grant and Mike Natchees of the Ute Tribe's air program.
- BLM/UDAQ/EPA have provided funding for a Uinta Basin Aerial IR Survey to find big leakers, ideally to have operators determine root cause and fix them before the next ozone season. Dr. Seth Lyman of Utah State University's Bingham Research Center will serve as the project manager. The team had a meeting with Minnie Grant (Ute Tribe) and Ataya Cesspooch (BIA) and BLM will be meeting with the Ute Tribe Business Council on 11/8.
- EPA Region 8's draft U&O FIP (Federal Implementation Plan) to create a level playing field for air emission reduction requirements for facilities on State or Indian country, is in the OMB.

Hope all is well with you and yours, Jerry.

Subject: reminder of next Federal Partners meeting in November [WARNING: DKIM validation failed]

I apologize in advance if this should have gone out sooner, but wanted to get the reminder out of the next Federal Partner's meeting. At the last meeting it was agreed to meet on Wednesday, November 16th, in the BLM Utah State Office in Salt Lake City. The group also agreed to change the start of the meetings, so it will begin at 9:30 am on the 5th floor. If anyone needs directions to the Utah State Office, please let me know. I have attached my notes of the last meeting, along with the list of attendees. Please let me know if I need to make any corrections to them. That would be appreciated.

I will be preparing the draft agenda for the meeting soon. Should anyone have any agenda items for me to place on that, again, please let me know so I can include them. The draft agenda will be shared to this group prior to the meeting date.

Any questions, please let me know. Thanks everyone.
